Wrong revetment size was placed by Caltrans in Fall 2012 under permit #18562. An NOV was issued to Caltrans. They repaired the left bank, but have not repaired the right bank of the levee. The LMA contacted Caltrans regarding this issue, but they have not complied with the request.

08/16/2016: The erosion site was found progressed with signs of bank slipping.  
 08/12/2015: The erosion progressed at the site. Newly collapsed material is observed at the bottom of the erosion.  
 08/20/2014: The erosion at the site has worsened. The erosion increased in both length and in height.  
 09/12/2013: Site has been visited and signs of new erosion are visible.  
 08/22/2012: The erosion was surveyed and documented for monitoring purpose. There is no levee structure on the site, only high ground protecting the land behind. The levee crest width and levee height were not measured or estimated in the field. [2016 Site ID:NA0017U16RM23.35]
